

Andy Project – Detailed view (v1)

By Bill Weis

Requirements:

1. Use voice to control his TV, adjust volume and turn TV on and off including xbox
2. Be able to turn a fan on/off by voice
3. Be able to use accessibility features on a Google Pixel 3 phone

Solution – High Level:

1. We provided an Amazon Fire TV cube so Andy could use voice to control his TV.
2. We provided an Amazon Smart plug to control the fan
3. We sent Andy a Google Pixel 3 phone

Details of the Solution

1 – Voice Control his TV – We provided Andy with an Amazon Fire TV cube so he could control the desired functions on his TV and xBox.

2 – Control his Fan using voice- Andy can now use voice commands to control his fan that is plugged into the Amazon Smart Switch

3 – Use the Accessibility Features on a Pixel 3 phone – We provided Andy with a Google Pixel3 phone so he could experiment with the accessibility features.
