

Bob W. Project – Detailed View (v1)

By Bill Weis

Requirements:

1. Be able to voice control his TV.
2. Be able to have video calls with his siblings, kids, and friends

Solution – High Level:

1. We installed an Amazon Fire TV Cube so Bob can use voice to control his TV
2. We added a camera to the Fire TV Cube and installed the Zoom app for 1 to many video calls.

Details of the Solution

1 – Installed an Amazon Fire TV Cube – A standard installation of the Amazon Fire TV cube with no sound bar on the TV. We added all the necessary apps so Bob can watch his favorite content using voice commands. It is important that all the updates are installed. ***Settings -> My Fire TV -> About -> Check for Updates***

2 – We added a camera to the Fire TV Cube for Bob to have video calls with siblings, kids, and friends – We added a camera to the Fire TV Cube and installed the Zoom app. Here is a list of components needed when adding a camera.

- a. [NexiGo 1080P Webcam](#)
- b. [Micro USB Male to USB Female cable](#)
- c. [Type A Male to Female USB Extender cable](#)
